

# Sally sold 1000987 hot dogs 3 years how many will she sell in 6 years

## Answer 1

Answer: so 1000987 in 3 years or  $1000987:3$  or i like to put it as  $1000987:3$   
we notice that 6 is 2 times of 3 so we just multiply  $1000987:3$  by 2 and get  $2001974:6$   
2001974 in 6 years
